THREE MILL INCREASE TO BRING MILLRATE TO 78

A three mill increase in local taxes is anticipated by the Drayton Valley Town Council and at the May 15th meeting Bylaw No. 450 authorizing the 1969 assessment was given two readings.

First reading of the bylaw is being held temporarily until receipt of the school requisition from the County of Parkland which has already indicated that a substantial increase for school purposes is not expected.

The three mill increase will bring the millrate to 78, compared to last year's 75.

One mill of the increase is likely to go for school purposes and the balance for town use. It was Council's feeling that the increase will permit for more adequate budgeting and that small increases over two years is preferrable to a larger jump next year.

Pole-Climber Loses Life

This little black bear cub lost his life climbing a power pole and blacked out a part of the district last Friday morning. Searching for the cause of the power break, Calgary Power employees found the cub at the bottom of a pole three and a half miles south west of Drayton Valley. Gary Haack, a company employee stationed at Drayton Valley, holds the unfortunate little climber whose life was snuffed out at a tender age.

Alder Flats Area to Receive Buried Cable This Summer

AGT commenced work last week, on the 1969 portion of its $80 million rural buried cable program. Scheduled for completion in 1973, the program will bring four-party divided-ring service to almost all of the rural subscribers throughout the province.

To date, AGT has invested $33.6 million in the program. Approximately 27,800 miles of cable and wire have been buried, and facilities have been installed to provide more than 27,000 farms with service.

An additional $8.7 million is scheduled to be spent on rural cable this year. Some 6,000 miles of buried cable and wire will bring service to 31 new areas, and 100 miles of cable extensions will bring additional service to another four areas. During the year, four-party service will be extended to 7,000 subscribers, and made available to an additional 3,000 potential subscribers.

Alder Flats is among the areas scheduled to receive buried cable service this year.

CALFHOOD VACCINATION COMPLETED

Spring Calfhood Vaccination in the County of Parkland was completed on April 29th, with the exception of the new area, where the vaccination program is somewhat delayed. A total of 550 calves were vaccinated. It is anticipated that this amount will be passed by about 150 calves, which will result in a total of 700 calves.

In the spring of 1967 under a compulsory program, 749 calves were vaccinated. As of now under the voluntary program it is very encouraging that farmers realize the importance in having their replacement heifers vaccinated.

WEEKLY VIEWPOINT

A series of brief meditations for the readers of The Western Review prepared by the clergy of the Drayton Valley Ministerial Association.

Mission Accomplished

BY REV. DONALD SNELL

Another successful splash down, three happy Astronauts climbed from the spacecraft to relate their discoveries. The world waits to hear the news of these men and looks forward with anticipation and excitement to the day man will set foot on another planet.

Where does the Church fit into this space age? What is our mission as Christians in a world filled with scientific knowledge? Is there still a place for faith, prayer, worship and the study of God's word? What new discoveries are we making in the spiritual realm of life?

The rapid strides in learning made by these different fields should cause the religious world and especially the Christians to realize - What a mighty God we serve.

There are several things which the Astronauts must do in order to make a successful flight. First of all he must prepare himself. He must know what he is doing, so he studies. He must keep his body and mind in good condition.

Second - These men must obey orders. They know the importance of timing. They know how important it is to communicate with headquarters.

Thirdly - These men have dedicated their lives for a cause. It means something to them to discover God's universe, His laws and His creation.

Every individual born must realize that life is a mission. The Bible says that a day will come when everyone shall give an account. What have you done with your life?

Perhaps we can liken the life of an astronaut to that of a Christian. A Christian is one who prepares, studies the Word, knows the value of keeping oneself in condition. Orders are to be obeyed. When the Christian travels along life's road and can hear the signals being given from Headquarters he knows that all is well. He knows that time is very important as each day draws him to eternity. He feels the tremendous challenge of being dedicated and committed to a cause. The Apostle Paul was such a man. Writing to Timothy he expressed it in these words. "I have fought a good fight, I have finished my course, I have kept the faith:" In other words he is saying "Mission Accomplished".

Henceforth there is laid up for me a crown of righteousness, which the Lord, the righteous judge, shall give me that day: and not to me only, but unto all them also that love his appearing 2 Tim. 4:8.

If we ever intend to accomplish our mission we too must PREPARE, OBEY, COMMUNICATE, DEDICATE and COMMIT our all to HIM.

Well done, thou good and faithful servant -- Until such time let us press on towards the goal for the prize of the high calling of God in Christ Jesus.

There are new discoveries for us in the spiritual realm, let us launch out under the direction and leadership of the Holy Spirit.

Report From Parliament Hill

By Allen Sulatycky, M.P.

The House of Commons Committee on Health, Welfare and Social Affairs has had one major task since the beginning of the year and that was to investigate the effects of smoking. Members have been priviledged to hear a number of the most qualified specialists in all areas of health, advertising, medicine and social patterns. Some of the findings to date have been:-

1. Children of non-smoking parents tend not to smoke.
2. Children of smoking parents tend to smoke.
3. If a child smokes, his life expectancy is reduced by five to ten years.
4. The Canadian Medical Association (with a delegation of 8) stated categorically that smoking causes lung cancer and contributes substantially to heart disease. It is now generally believed that increased heart disease may be the most serious result of smoking.
5. There is no longer any scientific debate as to whether or not smoking is a health hazard - it is.
6. The incidence of cancer in the mouth, throat and bladder is increased by cigarette smoking. Cancer tends to develop about 15 to 20 years after a person begins to smoke.
7. Research to date shows that pipes and cigars are not nearly as serious a cause of cancer as cigarettes. The tobacco burns at 300 degrees higher in cigarettes than in cigars. This may be one of the factors. There is also less inhaling of cigars. But cigarette smokers who switch to cigars tend to inhale the cigar smoke too.
8. Most cancers in smoker's lungs do not develop deep in the tissue where the carbon and nicotine settle out (contrary to what one might expect). They develop in the large air ducts leading into the lungs, suggesting that gases in the smoke are a major hazard.
9. Regular chest x-rays have been successful in providing sufficiently early diagnosis to prevent death in only 10% of smokers who developed cancer. By the time the cancer has developed enough to be visible on an x-ray it has already entered the blood stream in 90% of the cases. A statistic - in 250 men who are heavy smokers, 21 will develop lung cancer. In 250 women, only one will have cancer of the cervix, yet cancer societies stress the latter more than the former.
10. Heart disease is Canada's leading killer - (over 45,000) Canadians a year.) Among those 35 - 54 years, the death rate by coronary disease is between 5 and 10 times higher among smokers. If you have high blood pressure, your risk of dying goes up 200% if you smoke. The overall probability of death by heart disease is increased by 70% in cigarette smokers.
11. Research has shown that about one third of those smokers who want to stop are not able to break the habit.
12. Some worry that they might gain weight if they stop smoking. The C.M.A. reports that one pack a day puts the same stress on your cardio-vascular system as being 80 pounds overweight.
13. Tobacco withdrawal causes three days physical hardship. Research shows that the best time to quit is when you change your routine - go on vacation, or start a new job.

These are only a few items from the evidence we have now received. This C.M.A. quotation shows how doctors view the situation. "The potential benefits to be derived from the cessation of smoking place it at a level of importance in preventive medicine with pasteurization of milk, the purification and chlorination of water and immunization." If you're able to stop, then stop - if you're not able to stop, reduce the number of cigarettes you smoke. So say the health experts.

Evansburg Teacher Retiring After 22 Years in Classroom

Mrs. Tom Mitchell ("Thel" to all her many friends) is retiring after 22 years of teaching school in Evansburg. There are very few people who took their schooling in Evansburg who did not have have the good fortune to study under Mrs. Mitchell at one time or another.

She prepared for her teaching career by attending the Provincial Normal School in Victoria, B.C., and the first school in which she taught was in Blakeburn, B.C. where "main street" was a mine yard.

After that, she taught grade one for one year in Grand Forks, B.C. Then she married Tom Mitchell and came to Evansburg in 1932. She has three children, Wayne, Ardell and Garry.

The family moved to Coleman, Alberta in 1936 when the mine in Evansburg closed operations, but they returned to Evansburg in 1947. Mrs. Mitchell began teaching school in Evansburg in 1947 when there were only five teachers and three two-room schools. During this first year of teaching, she taught grades one to five, but as enrolment increased, she took over a complete grade one class. She continued in the primary grades for 10½ years, and many people still reminisce about the well-stocked model store she had set up, the gay and happy music classes, and the unbelievably creative art displays. Mrs. Mitchell feels that those were the most enjoyable years of her teaching career and her many students thoroughly agree.

Her classes were moved for one year to the old Scout Hall when the schools became over crowded. There were no play grounds, only stumps of trees surrounding the buildings.

In 1957, Mrs. Mitchell transfered from Primary to Junior High and has been the main-stay of the Language, Literature and Art in this area ever since. During these later years, she furthered her own education by attending Summer Sessions at the University of Alberta, and Evening Credit Classes from the University in Evansburg.

For several years, the Mitchells were undecided as to what their plans were for retirement, but now they both have finally come to the conclusion that Evansburg is where they want to live. They have purchases a lovely big home here and are busily beautifying it and the surrounding grounds to make it a show-place of the community.

They plan to spend a summer vacation travelling in England, Ireland and Scotland this year. Their future plans are to travel to a certain extent, do some gardening, and enjoy their new home. Mrs. Mitchell assures us that there will be plenty of time for the only sport she really enjoys -- golf.

She will be sadly missed at school, but she will never be forgotten.

The bears are becoming very plentiful in this area and at least seven people have seen one or more at a time in different sections of the community. Orris and Dorothy McWillis had the misfortune to have a yearling calf killed by one of these bears on Tuesday, May 13th. Two days later, another bear was in their field close to the farm buildings. This one was just viewing the scenery, Dorothy, and the cattle, and did no damage.

YOUR DENTAL HEALTH

The term "malocclusion" of the teeth means irregular or crooked teeth. Most causes of crooked teeth can be corrected with proper treatment.

Malocclusions are often caused by habits such as thumb sucking, lip biting, and mouth breathing. When a child bites his lower lip or places a thumb or finger in his mouth, the forces tend to pull outwards on the upper front teeth. This deformity can usually be corrected if the habit is stopped soon enough.

It must be mentioned that thumb sucking can be considered almost "normal" for many children. Unless the habit is quite severe, no deformity may be present. It is wise to consult with your dentist to see if the teeth are being pulled out of position.

A habit of breathing through the mouth produced another type of dental deformity. Crooked teeth plus gum disease may often be seen in mouth breathers. Your doctor may be able to suggest a possible reason for the mouth breathing habit.

When baby (primary) teeth are lost early, teeth left in the mouth may start drifting tipping into the spaces left by the lost teeth. This may lead to crooked permanent teeth. Certainly, it is very wise to care for children's primary teeth the same as you would care for permanent teeth.

"Orthodontists" are specialist dentists who treat severe cases of crooked teeth. Your personal dentist can certainly help you in deciding if a problem of crooked teeth exists - then he can either treat it himself or send you to an orthodontist.

D. V. Highlights

BY MRS. EDITH DEBY

Best wishes for a happy future, Mr. and Mrs. Ernest Borduzak.

It is good to see Miss Linda McMorris back in charge of the swimming pool. Linda has been attending college in Calgary for the past year and, of course, she is majoring in Physical Education.

Mrs. Roy Burrows will leave June 4th for Montreal where she will visit an aunt she has not seen for some time. Mrs. Burrows is travelling by train.

Mrs. Howard Pickup had the misfortune to break her arm when she fell last week.

Mrs. Block, of Daysland, paid a visit to her Drayton Valley relatives not long ago. These include Mrs. Leslie Oscar and family, Mrs. Leo Hutchinson and family and Mr. Richard Block and his family.

Sympathy is extended to Mrs. Bert Telford whose uncle, Al Hague, died recently.

Mr. and Mrs. Rex Burrows are busy with their new home at Mulhurst. We hear that the new home is very nice and the best feature, from Rex's standpoint, is that it is beside the golf course.

Pedal Pushers Has Enrollment Of Over 100

The Junior Pedal Pushers Club, 1969, started on May 21st. Registration this year is over 100, which is much less than last year. The Head Instructor again this year is Bob Doig, Town Police Chief, and is assisted by members of his own department; members of the R.C.M.P. Detachment; and members of the school staff.

The course this year will run for five weeks and at the final meeting, trophies will be presented to each individual group. There are three groups operating: the first group is Grade One students who meet at 4 p.m. on Wednesday afternoons; Grade Two students who meet at 4 p.m. on Thursday afternoons; and the third group, Grade Three and above, who meet on Tuesday at 4 p.m. All groups meet at the Town Office parking lot for instruction.

It is a great help to the instructors if the children are ready at the stated times for instruction. Visits by parents are welcome.

Attend Convention

Representatives of the Drayton Valley C.W.L. attended the 47th annual Diocesan Convention in Edson, May 23rd, 24th and 25th. The theme of the convention was "Experience Through Service"

Monseignor J.A. MacLellan was honored on his retirement after thirty-five years of service as Provincial and Diocesan Director of the Catholic Womens League, and Father J.C. McNeil has been appointed as new director.

Recreation Ramblings

By SYD MOORE

The summer program is shaping up very nicely. We have received a lot of response from positive thinking community leaders who are really a core of any success that might come. We have selected a corps of leaders from the applications we received and are sending fine young people to playground school which will be held in Olds. Although we have not received confirmation from all those selected or from some of the communities, here is how it appears at this moment: On supervised playgrounds we have: Ken Akins and Alice McRobie in Duffield, Rose Cunningham in Clymont, Mrs. Carol Brown in Mooncrest Park, Shannon Campbell in Magnolia, Kathy Henderson or Miss Cherrington in Moon Lake, Myrna Wickware in Tomahawk, Louise Tetreau in Easyford, Nancy Pickett and Larry Mattoon in Rocky Rapids, Whitby and Ramona, Judy Walaschuk in Gainford, Karen Drummond and Derelle Sawyer in Winterburn, Linda Hawkins and Keith Bentley in Seba Beach, Mavis Brenenstuhl, Judy Hagen, Helen Letourneau and Elaine Burn in Spruce Grove, Doreen Fisher, Dianne Vanderwell, Barbara Mandick and Marilyn Benn in Stony Plain, Irene Saretsky and Robbie Brown in Entwistle, Carol Laleune and Coleen Finlayson in Wabamun, Judy Mann in Fallis, Jeanette Grey in Violet Grove.

There are possibilities of additions to this list and some changes, so we will keep your community informed of these as they occur.

The Day Camps are also coming along fine. Location of these will be at the Easyford Camp site, and the Chickakoo Camp site. Leaders of the Day Camp programs will be Linda Dusterhoft and Gary Gylander at Easyford, with Bob Iwaasa and Maureen Kreye at Chikakoo.

In addition to Edmonton, Devon and Drayton Valley Swimming Pool staffs which I have not the name of, Stewart Smith and Connie Quelch which will be added to our swim instructional staff.

University students which will be working in the programs this summer are Judy Schellenberger and Sharon Mielnichuk on playgrounds, Perry Kulak on Day Camps, Ron Lowe on Swimming, Jean Milner on the Youth Employment Agency, and Judy Hagen and Helen Letourneau on Playgrounds, Lorraine Musterer and Karen Pyrcz on Tourist Hostess programs.

Although this adds up to a pretty tremendous program I think the awareness that has been developed in ourselves after interviewing some 90 candidates for employment is the real need and desire that young people have to be given the opportunity to become part of a growing and changing community during their leisure. We will be working with some 50 - 70 of these young people as you can see from the lists here. Our Youth Employment Agency will be in touch with all of you in the near future with respect to other job opportunities. If every homeowner, church, service group, council, business man, etc., would find one small job this summer for one student, what a tremendous service he could perform for both himself and our young citizens.

Hold it right there! One more sweep with that shovel and you could cut clean through an AGT telephone cable! It's easier than you think. You dig post holes or a trench in your back yard, and before you know it the damage is done, you've severed a buried cable . . . severed vital communications to businesses; to hospitals, police and other emergency services.

Right now, before you take one more sweep with the shovel, dial "0" (Zero) and ask for Zenith 07128. An AGT Technician will mark off the exact location of any buried cables and save you and others a great deal of trouble, expense, even involvement in law suits!

Recreation Round-Up

BIG SPLASH

There was quite a splash away out in the Pacific Ocean last Monday morning and there was another resounding splash in Drayton Valley on Saturday with the opening of the local swimming pool. The pool opened on schedule at 1:00 p.m., Saturday May 24th, and before the doors closed on the first day's records a grand total of 709 swimmners had used the pool. Sunday's proceedings followed suit as well over six hundred persons went swimming.

Saturday set a record for an opening day attendance at this pool. In years gone by there has always been a rush to get in that first swim, however, we never saw anything like this before.

Monday at 9:00 a.m. featured the opening of the school swimming classes in which over three hundred students will take part. The classes will last over a period of four weeks closing out on June 20th. Students from the Drayton Valley Junior High School and St. Anthony's Separate School will take part in the program.

Registrations in the Swimming Instruction Program are piling up quite rapidly. Four sets of Red Cross Learn-to-Swim classes will be offered during the summer, two in July and two in August. Each set will last ten days including the pre-test for the Red Cross Examination at the level in question. Instruction will be offered at the Senior, Intermediate, Junior and Beginner levels as well as the Survival Swimming Course. You may register in any of those classes Monday through Friday from 9 a.m. to 10 p.m. except during the noon and supper hours. The pool is open on Saturday and Sunday from 1 p.m. to 10 p.m. The charge for all Red Cross Instruction is $5 for any one set of lessons play a .25 examination fee

The Early Bird swimmers got their program under way on Monday morning. There is more interest in this phase of the program than there has been in past years with over twenty persons turning out at 6:30 a.m. for their daily dip. Any interested individual may register any time at the pool office. The club is reserved for persons sixteen years of age and over and the fee is $4 per season or $6 per family.

The Neptune Competitive Swimming Club will open its season on Monday, June 2nd, at 5:45 p.m. Interest in competitive swimming seems high and we can look forward to a busy season for this group. For further information or details on the Neptune program get in touch with Al McKillop or Marlene Samis.

Notice has been received that registration for the County of Parkland Learn-to Swim Program will take place at all schools throughout the county on June 4th and June 5th, between 12:00 noon and 1:00 p.m. The County Instructional Program will be held at the Drayton Valley pool in two separate sessions during the months of July and August.

BASEBALL IN BAD WAY

Most phases of our recreation program are progressing favorably but Minor Baseball is in trouble and has been this way since the beginning of the season. Lack of leadership personel, coaches and umpires is the main problem. Never in the past decade, have we had so few leaders for so many prospective participants. The all-star teams, at the Midget, Bantam and Little Canadian levels, playing in the Oilfield Minor Baseball League have adequate coaching, as have the Mites, the under ten group. The local Little Canadian League, approximately 50 players, however, has a shortage of coaches such as we never had before not to speak of umpires. The lack of public interest in Minor Baseball is evident in fact the entire Minor League Baseball picture is one of frustration and bewilderment. We wonder if it might be advisable to drop baseball from our program or at least to curtail the amount of teams to leadership personnel available. We have a problem here and whatever the answer may be, some drastic changes must be initiated before the 1970 baseball season rolls around.

HOCKEY CAMP

The Park - Land Summer Hockey Camp will be held at the Centennial Civic Centre in Drayton Valley from August 25th to August 31st. Clare Drake, Head Hockey Coach at the University of Alberta will be the Camp Director and Head Instructor. He will use a staff of trained professional and amateur coaches in order to provide the very best instruction available to each boy attending the camp. Boys from 8 to 18 years of age are eligible for the camp. For training purposes boys will be grouped as closely as possible to age, height weight and experience.

There are still openings for registration at all levels of this camp. For details and further information contact Drayton Valley Recreation Office 542-3327.

TENNIS CLINIC SUCCESSFUL

The Tennis Clinic presented here Sunday by Greg Harris of Edmonton proved to be very successful. Some thirty-five or forty members of the local Tennis Club attended the clinic and benefited from the outstanding instruction session offered by one of Alberta's top tennis players. Harris has a very impressive tennis record behind him.
